

Networking Urban Resources with Teachers and University to enRich Early Childhood Science

Deanna Bobak, MBA, M.S.
Project Director

Deanna Bobak is the Project Director for the NURTURES grant. She holds a BS and MS in Geology, as well as an MBA in Leadership from The University of Toledo. Previously, Deanna managed approximately \$3 million in funding from the United States Department of Agriculture for research involving the use of constructed wetlands for remediation of microbial and chemical contaminants, . She has also held the position of a Technology Transfer Coordinator with the United States Department of Agriculture-Agricultural Research Service, where she was a member of the award-winning Virtual Grower Development Group, responsible for the training modules associated with the Virtual Grower software. Deanna has presented her work at several regional and national conferences, and was awarded the Best Student Presentation at the 2005 International Conference in Soils, Sediment and Water, as well as the Best Platform Presentation award at the Sigma Xi Graduate Research Symposium in 2006. She is a 2015 recipient of the Business Leadership and Engagement Council's prestigious Pacemaker Award.
