

Networking Urban Resources with Teachers and University to enRich Early Childhood Science

Nicole Tuttle, Ph.D.
Research Scientist

Nicole Tuttle, Ph.D. is a Research Scientist with the NURTURES program at The University of Toledo. After earning a B.S. Chem. from the University of Michigan in 2003, she went on to teach middle school science in Atlanta, GA. Following that and a stint as an industrial chemist, she went on to earn her Ph.D. in Chemistry from the University of Chicago in 2013. Dr. Tuttle's long interest in science education then led her to a post-doctoral position with the LEADERS program at The University of Toledo. Currently, she coordinates the NURTURES research efforts and teaches Action Research. Her research interests include incorporation of inquiry science practices in K-12 classrooms, bringing chemical literacy to biology teaching, and improving communication about chemical science to the broader public. Her work has been published in venues ranging from Nature to Science and Children.
